Veil

Private internet, free with a few ads.

Connect in one tap. Watch a short ad whenever you need more time.

No sign-up
Open the app and connect. That's it.

No activity logs
We never record the sites you visit.

Watch ads, earn time
Each short ad adds free VPN minutes.

You start with 60 free minutes

Get started

On your first connection, Android will ask you to allow a VPN.
By continuing you agree to the Terms and Privacy Policy.

Watch ad

Minutes are added after our server confirms the ad. This usually takes a few seconds.

Settings

CONNECTION

Protocol

Auto | UDP | TCP

Recommended. Uses UDP for speed and switches to TCP automatically if your network blocks it.

Kill switch

Blocks all internet if the VPN drops, so nothing leaks unprotected. Turn on “Always-on VPN” and “Block connections without VPN” for Veil in Android settings.

Open Android VPN settings

DNS leak protection
Your lookups stay inside the tunnel — Always on

Auto-reconnect
Reconnects if your network changes — Always on
